### Corn Delayed Price Rate

10 cents flat + 10 cents per bushel per month pro-rated on a daily basis (.003333 per day) from date of delivery until priced or September 30, 2025.

All drying charges and grade discounts will be deducted when the grain is priced.

The Ohio Department of Agriculture supplies an official numbered document for all grain deposited for Delayed Price. The agreements are offered on a continuous basis and will not expire. The agreement also covers all commodities, so once signed and on file, a single form will cover all future delayed price transactions. However, if the name on the grain account is changed, a new delayed price agreement will be required.

Delayed Price agreements must be on file prior to delivery of the grain or within 15 days of initial delivery date.

**Delayed Price grain cannot be used to fill forward contracts, be transferred to grain bank, or be transferred to basis contracts.**

Due to market conditions the above delayed price rates are not guaranteed and are subject to change without notice.
